

Advisory Board

March 2020

Dear Clients and Neighbors,

We recognize that with the constantly changing COVID-19 situation in New York area, this is an unprecedented time for everyone, especially elders and their families — a time that, for many, is filled with deep concern. Our hearts and thoughts go out to each one of you.

I want you to know that you have our commitment to continue to provide you with the care and services you depend on from LifeWorx. For more than 15 years, LifeWorx has focused on our mission to provide the highest quality of care with trusted, skilled and experienced caregivers who possess the personality fit for each client's unique need and home. This enduring mission guides us as we closely monitor, assess and continue to provide care.

In response to the current situation, we've implemented our emergency preparedness plan — which examines continuation of care, infection control and resources — and have taken actions to ensure continued service to our clients and prospects. Rest assured; we are prepared to serve you. Our business approach always includes abundance of qualified caregivers and support resources.

Please do not hesitate to reach out to us with questions or concerns. The sun does come up every day and soon it will be spring in Greater New York tri-state. Please be safe and stay healthy. We are in this together,

Bal Agrawal
